

OLIGO LUMINAIRE

Dear valued customer,
We are excited to share with you Oligo lighting, made in Germany.

We look forward to your feedback and also information in which you would like to share with us.

OLIGO Lighting

CORPORATE PHILOSOPHY

Passion and fascination with light, as well as our claim to be satisfied only with the best, are our daily drive and motivation at OLIGO.

GESTURE CONTROL

Light is magic. With touchless controls we turn switching on the lights into a magical experience.

TOUCH DIMMER

An intuitive luminaire control feature is the touch dimmer. You can regulate luminaire brightness by simply touching the fitting or cover.

DIMMER SWITCH

A discreet button, perfectly incorporated into the luminaire design allows you to control individual LED segments independently.

SLEEP TIGHT MODE

Some of our luminaires offer the follow-up function upon leaving a room or going to bed.

HIDDEN HEIGHT ADJUSTMENT

The suspension height of the luminaire can be adjusted variably simply by moving the lamp head or the cable. The mechanical system

for height adjustment is integrated into the canopy, which means it cannot be seen.

24 VOLTS: THE NEW DIMENSION IN LED SYSTEM TECHNOLOGY

The newly developed SMART.TRACK is optimized for an efficient use of the LED technology. The system can be integrated in a smart home solution via app.

HIGH QUALITY PRISM

One major characteristic of OLIGO luminaires is a brilliant illumination. The light is smoothly scattered and seamlessly fades towards the edges of the light cone.
