

P5 LUMINAIRE

Dear Friends of P5;

I am Amos Lim, HP [+6596999028](tel:+6596999028), of P5 Luminaire.

We are sending regular updates and keep everyone equipped with the latest information and new discover along the way. We look forward to your feedbacks and also information in which you would like to share with us.

Meanwhile, continue to stay safe during this period. Have a wonderful day & have fun reading.

Orluna – Beautifully Lit;

our mission is to offer the world's best lit effect – lighting that doesn't just illuminate a space, but enhance its beauty.

Best Lit Effect

The right lighting can dramatize detail, evoke emotion and turn empty space into living breathing places. Yes our fittings are beautiful, but what's more important is to create a beautiful environment to be in.

Quality

We make products of unparallel quality. Almost every component is designed and built in the UK to the highest standards. Whether it's downlighting, or beam control, we aim to make the most reliable, efficient, and environmentally conscious lighting possible.

Innovation

Innovation runs through everything we do. From providing the most accurate colour rendition, with richer red and truer whites, to the widest range of dimming, if no one's done it before, we take on the challenge.

Trust

Orluna is a trusted partner of the world's leading designers on their most high-profile projects. We keep them that way by being a pleasure to work with and by keeping our promises.

Beauty

It's about helping you to create a beautiful space. Because when you've taken great care over every element of your design, you need to take as much care over the lighting.
